Introduction

our introduction

A revenue infrastructure company for premium categories, combining agentic AI with a physical sales layer to turn demand into closed deals, with no gaps in between.

Built for domestic Indian UHNWIs and the US-based NRI diaspora, CoSci runs demand capture, AI scoring, nurture, and human closing as one engine, backed by 1.5M+ proprietary buyers across 25 US metros.

Presented By Shyam Sunder

Problem we working on

Premium businesses don't fail on product. They fail on pipeline velocity. Acquisition channels run in silos, wasting spend and missing the intent signals that matter most.

Leads enter unscored, so sales teams waste cycles on low-intent prospects. Follow-ups come too late, and by then the buyer has moved on: fragmented, unscored, too late, lost revenue.

Fragmented → Unscored → Too Late

Problem

CoSci replaces intuition with intelligent infrastructure. Agentic AI captures demand across 39+ ad exchanges and 1.4M+ premium sites, then scores every lead automatically. No lead goes untouched: the first response goes out within 5 minutes, and 100% of leads are scored and routed. Eight specialist agents handle research, intent signals, qualification, outreach, and scheduling around the clock, so your pipeline keeps moving 24/7 across every time zone.

AI warms the prospect, and humans close the deal. Once a buyer shows intent, our physical sales network takes over with consultations, site visits, NRI roadshows across 25 US cities, and an activated broker network. Every field team arrives with an AI-prepared buyer dossier, so they focus purely on trust and negotiation. The result is 3× higher conversion and just 72 hours from discovery to closing.

our solution

OUR TOP AGENTS FOR OUTREACH

01 Outreach Agent: Multi-Channel Sequences

02 LinkedIn Agent: Social Selling & InMail

03 Signal Agent: Buying Intent Monitoring

04 Qualification Agent: Lead Scoring & Routing

WHAT OUR CLIENT SAY.....

CLIENT LOVE

CoSci brought a structured, AI-led approach to selling across our portfolio. Their mix of digital reach and on-ground follow-through gave us momentum across markets.

CYGNETT Hotels

Leads used to slip through the cracks. With CoSci, every enquiry is followed up quickly and the qualified ones reach our team ready to talk

Yugen Infra

CoSci helped us reach NRI buyers we couldn't easily reach before. The roadshows and nurture campaigns brought serious, high-intent prospects to our projects

IRA Realty

CoSci works like an extension of our team. Their agents handle the outreach volume, so our people can focus on closing

★★★★★ 5.0

Marketing Channels & Target Audiences

We run AI-led digital channels and a physical sales network to reach Indian UHNWIs and US-based NRIs.

- ✓ Domestic Indian UHNWIs are reached through programmatic, Meta, Google, and WhatsApp, using hyper-local, proximity-based targeting.
- ✓ US-based NRIs are engaged through LinkedIn, email, WhatsApp, and physical roadshows across 25 US cities, with nurture timed to their time zones.
- ✓ Every channel feeds one funnel: 39+ ad exchanges and 1.4M+ premium sites, with all leads scored and handed to human closers.
